

14th March, 2019

Dear Parents,

As you know, from the newsletter and the displays around the school, our current School Values are Respect, Responsibility, Teamwork and Independence. These values were developed as part of our previous School Review, where we asked for parent input into what you value for our students, and your child/ren.

It was suggested at our recent School Review that we revisit these values once again, as we have new families who have since entered the school, and families that have left the school too.

Please list below, the values you would want for our students/children to learn and uphold for them to be the best citizens in the future. Please list as many as possible and return to school by Wednesday 20th March 2019. Please take the time to complete and return this list.

We will compile the returned lists and come up with the most popular 4-5 values. There may be some changes, there may be no changes.
